HARRISON FABIANO DE LIMA

Software developer

Biography

Hi, I'm Harrison Fabiano de Lima, a 21-year-old Technologist with a degree in Systems Analysis and Development from UMFG. I have strong experience and skills with key tools like Figma, Node.js, JavaScript, React, and TypeScript, and I'm continually honing these competencies for frontend application development.

Professional Experience

Uauh Cartões - (2023 - At the moment)

I'm currently working as a Software Developer, where I use my tech expertise to create innovative solutions. I leverage the skills listed in the "Skills" section to develop projects that help drive the company forward.

Companhia Melhoramentos Norte do Paraná - (2019 - 2023)

Over the past four years, I contributed to supply management and administration. I developed reports, key performance indicators (KPIs), and dashboards, as well as automated processes and monitored purchase orders. I also handled administrative tasks and provided multichannel customer support.
